

Freight Forwarders.

Global Transport. Trusted Solutions.

Fastmore Logistics has spent years building the best possible national transportation network and solutions catered to International Freight Forwarders. Fastmore understands forwarder requirements and demands better than anyone in the industry. Our Carrier procurement and development team is continually monitoring industry trends, qualifying carriers, and creating KPIs to hold our carriers accountable. This has made us the go-to solutions provider for a wide variety of Freight Forwarders. They look to us to provide time and cost efficiencies in transportation outsourcing.

▶ **Shipment Planning**

Fastmore team will leverage our experience to provide the best shipping solutions across multiple modes to meet your client's requirements.

▶ **Carrier Procurement**

Fastmore will instantly increase your available carrier pool, while meeting the most demanding carrier vetting compliance requirements.

▶ **KPI Reporting**

Fastmore collects data for shipment and carrier compliance monitoring. This allows us to improve service quality and hold carriers accountable, resulting in a more efficient service for our customers.

▶ **Automatic Shipment Status Alerts**

Developed specifically for freight forwarders, our automated status alerts can provide you with all shipment milestone alerts ranging from arrival to pick-up and ending with POD confirmation.

▶ **Tracking**

We understand the importance of cargo visibility and shipment status communication with our customers. For years, Fastmore has lead this segment by having a dedicated tracking team that monitors hundreds of loads daily 24/7.

▶ **Online Customer Tools**

Expedite your next shipment quoting and tender with our comprehensive customer online tools at www.fastmore.com.
