

# High-Value Cargo

Fastmore's high-value cargo program utilizes only the top-performing carriers to handle your most sensitive cargo. Over the years, we've developed best-in-class service tailored specifically to freight forwarders' needs.

Our tech-enabled, proprietary carrier vetting process leverages internal and external data to select carriers with a focus on the highest client service standards and proven track records. Our team continuously monitors the program to ensure carrier compliance with service requirements.

## Our Solutions

- **End-to-End Visibility**

We provide real-time cargo visibility for all for all shipments, including high-value shipments.

- **30-Minute Issue Escalation**

Our 24/7/365 high-value cargo monitoring team is there when alerts are triggered. We escalate potential issues within minutes to alert clients and design an alternative solution.

- **Carrier Compliance**

Our proprietary technology provides live carrier compliance and service-level monitoring. We process thousands of data points to develop a 12-point carrier scorecard.

- **Custom Solution**

Fastmore can customize service solutions to match your security requirements or your clients' service standards.

## Client Testimonial

“Being in the people and communication business, I wouldn't want to lose sight of the great support and communication provided by your team. We have seen the automated communication add value and your drivers have been where they are needed every step of the way.”

-Air Import Manager, Top 5 International Freight Forwarder
