

High-Value Cargo

Whether you are shipping high-value cargo or need additional oversight, Fastmore's high-value cargo program utilizes only the top-performing carriers to handle your most sensitive cargo. Over 16 years, we've developed best-in-class service tailored specifically to Freight Forwarders' needs.

At Fastmore, our team understands forwarder sensitive requirements better than anyone in the industry. Our tech-enabled, proprietary carrier vetting process leverages internal and external data to select carriers with a focus on the highest client service standards and proven track records. Our team continuously monitors the program to ensure carrier compliance with service requirements, proactive communication, and real-time cargo visibility.

Our Solutions

- **End-to-End Visibility**

We provide real-time cargo visibility for all high-value shipments.

- **30-Minute Issue Escalation**

Our 24/7/365 High-Value cargo monitoring team is there when alerts are triggered. We escalate potential issues within minutes to alert clients and design an alternative solution.

- **Carrier Compliance**

Our proprietary technology provides live carrier compliance and service-level monitoring. We process thousands of data points to develop a 12-point carrier scorecard.

- **Custom Solution**

We can customize service solutions to match your security requirements or your clients service standards.

Client Testimonials

“Being in the people and communication business- I wouldn't want to lose sight of the great support and communication provided by your team. We have seen the automated communication add value and your drivers have been where they are needed every step of the way.”

-Air Import Manager, Top 5 International Freight Forwarder
