

Real-Time Visibility

At Fastmore, we believe in full transparency. We've been early adopters and pioneers in providing third-party tracking solutions to our clients. Our mission is to change how you work with freight brokers by eliminating the uncertainty of shipment progress.

Our reliable tracking solutions remove surprises by providing customers with greater visibility and control over their businesses. Our technology helps mitigate supply chain risks and helps you make informed decisions in real time using dynamic tracking data.

Our Solutions

- **Shipment Visibility and Event Management**

We provide our customers with complete shipment visibility and event updates through our customer portal 24/7/365.

- **Intelligent Exception Alerting**

Fastmore integrated tracking alerts customers of potential delays and in-transit exceptions to allow a quicker resolution to keep your freight moving.

- **Precise Location and Predictive ETAs**

Real-time shipment data from GPS, ELD, and mobile devices provide the precise location of shipments and predict accurate ETAs.

- **Customer Connectivity**

Our systems connectivity will reduce or eliminate manual customer tracking calls by sharing live shipment status on your platform.
